Lions

Elephant

Elephants are the largest existing land animals.

Elephants are scattered throughout sub-Saharan Africa, South Asia, and Southeast Asia and are found in different habitats, including savannahs, forests, deserts, and marshes.

They are herbivorous, and they stay near water when it is accessible.

Lions

The lion (*Panthera leo*) is a large cat of the genus *Panthera* native to Africa and India.

One of the most widely recognised animal symbols in human culture.

The lion inhabits grasslands, savannas and shrublands.

Giraffe

The giraffe is a tall African hoofed mammal belonging to the genus *Giraffa*.

The giraffe's chief distinguishing characteristics are its extremely long neck and legs, its horn-like ossicones, and its spotted coat patterns.
